

the jazz house

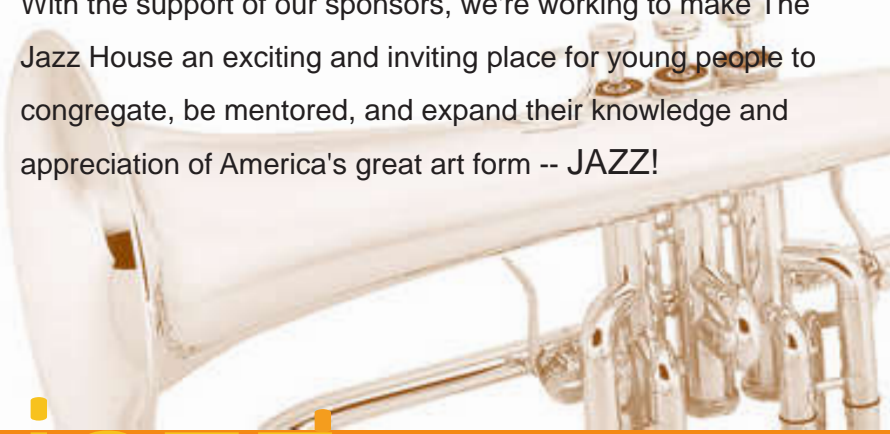

The Jazz House is a non-profit, community-driven performance and education space promoting jazz throughout the Bay Area community. We provide a student-friendly space for budding musicians to learn, perform, create and share the performances of local, regional and national acts. Local youth can serve as opening acts for these performances, meeting artists that often serve as musical role models.

The Bay Area is flush with talented youth, motivated and interested in hearing and performing jazz music. Consistent with national trends, on-going cuts to arts budgets have limited student's opportunities to perform. The Jazz House introduces these talented youth to a new audience - jazz lovers of all ages.

Donations to The Jazz House are tax deductible and serve to expand these opportunities. Support also goes toward jazz clinics hosted by industry leaders, and scholarships expanding knowledge through jazz camps and lessons.

With the support of our sponsors, we're working to make The Jazz House an exciting and inviting place for young people to congregate, be mentored, and expand their knowledge and appreciation of America's great art form -- JAZZ!

kids community and jazz

- * Student-friendly jazz performance space
- * Youth scholarships and music clinics
- * Preservation of a true American art form
- * Art exhibition space
- * Jazz library
